Education

- **University Of Central Punjab** — **Lahore, Pakistan**
  Bachelor of Computer Science, CGPA: 3.12 — *Oct.2021 - Dec.2025*

- **Punjab College** — **Lahore, Pakistan**
  ICS (Pre-Engineering) — *Sep.2019 - May.2021*

Technical skills

- **Game Development:** Unity 2D/3D, Gameplay Programming, AI Systems, Level Design
- **Programming Languages:** C#, Python, C, C++
- **Tools & Technologies:** Unity, Blender, GitHub, Visual Studio
- **Core Concepts:** Scriptable Objects, Raycasting, UI Systems, Animation Integration, Object Pooling

Work Experience

Game Developer
1 Year

- Developed gameplay systems, UI interactions, and game mechanics using C# in Unity
- Built and maintained 2D & 3D games including level design and scene setup
- Optimized assets and improved performance across platforms
- Integrated animations, particle systems, and UI transitions
- Maintained modular and scalable code using GitHub

Unity Development Assistant
6 Months

- Assisted students in Unity scripting, physics, and asset integration
- Debugged and optimized game projects
- Built mini-prototypes for animations, UI, and gameplay concepts

Projects

- **RoadTrip (Unity 3D**): Endless runner with smooth multi-lane switching, dynamic environments, and optimized performance using object pooling.
- **WolfFear Endless Runner:** Lane-based runner with swipe controls, environment looping, and progressive difficulty scaling.
- **Haunted House Quiz Game:** Split-screen multiplayer quiz game with AI movement, checkpoints, and branching path logic.
- **Basketball Quiz Game:** Quiz-based basketball game with real-time scoring, UI transitions, and answer validation.
- **RPG Game:** NavMesh-based RPG with AI combat system, animation states, and third-person camera control.

Soft Skills

Communication | Teamwork | Problem Solving | Adaptability
